A sad case of death through the iniquity of a Clairvoyant occurred in Jersey City last Saturday. The murderous woman is Marcella-K. Metzler, and the victim Ida W Vail, a girl of nineteen, who has resided with her widowed mother in Newark. On Sunday last an undertaker was summoned Care Da. SEIBERT, to the Clairvoyant's place of business on Eric street, where he found awaiting burial, the body of a young woman. She had been brought there several days before by man named A. E. Kimball. From vari ons circumstances the undertaker's suspicions were aroused. He refused to lend his assistance, and notified the County Physi- MISS MICHELL and MRS. KNEVITT'S cion. A post mortem examination proved that death from miscarriage had been caused by the unlawful use of instruments. A mass of correspondence was also captured, consisting of receipts for money paid, letters asking advice and assistance, all tending to show that the woman, Metzler, is a criminal MISS L. L. BIDDULPH'S of long standing. She was arrested, but denied having produced the abortion. Kimball was also apprehended on Monday, and they are both in the Hudson County MISS JOANNA B. HARVEY,

jail awaiting trial.

Ida W. Vail, the victim of this startling crime, was the daughter of Sydney M. Vail, a Newark compositor who died seven vears ago, leaving a wife and two children VOCAL AND INSTRUMENTAL MUSIC in reduced circumstances. The congregation of the South Park Presbyterian church, of which the mother was a member at that time, interested themselves in her behalf, and assisted her in procuring a livelihood. The struggle against poverty became sterner each succeeding year, and the gradual decline in the fortunes of the family was noticeable in the grade of lodgings they were from time compelled to descend to. An adverse fate seemed to follow them. About five months ago, Ida, who was an expert sewing maching operator, obtained a situation in the office of the Domestic Sewing Machine Company in Newark. Then she was a blooming, sprightly, fascinating girl, and soon was a general favorite among the employees. Aside from her salary of \$8 per week, it is not known that she received any pecuniary assistance from Alonzo Kimball, the manager of the office and her alleged betrayer, and her misstep is entirely unaccountable to her friends. During last Summer, Kimball, who is a married man, had his wife and two children in Newark, but about the time that Ida was engaged they went to Massachusetts. In a statement made to the Police Justice in Jersey City, at the time of his arrest, Kimball exculpated himself from blame, es deavoring to place himself in the attitude of a good Samaritan.

The funeral of the unfortunate young woman took place on Wednesday, from the residence of her mother, in Thomas street, Newark. The services were conducted by Rev. Dr. Wilson, of the South Park Presbyterian Church. Dr. Wilson prefaced his M. A. FRASER, 663 Broad St., Newark, N. J. remarks by reading several appropriate passages of Scripture, and then spoke of the solemnity of the occasion, and sail that the lesson to be learned from it was the uncertainity of human life and the necessity of being prepar d for the hour of departure. He addressed touching words of comfort to the bereaved family and said in substance that it was quite probable the deceased had repented in anguish and with a contrite heart, and had found peace in Jesus. During the discourse those present were deeply affected, and many grown persons wept like children. After the services the remains were taken to Rosedale Cemetery, Orange, and interred beside the grave of her father.

two gallons will cover a hundred square feet of Shingle root, or over four hundred of Tin or Iron. Price of the Slate ready for use is 80 cents per gallon; \$16 per half barrel, or \$30 per barrel of about 40 gallons, with a hberal discount to the trade. We furnish and apply the material for \$2.50 per 100 square feet in the vicinity or New York.

We use no Tar in this Composition therefore it does not affect the water from the roof, if turned off for the first one or two rains. The Paint has a very heavy body, but is easily applied with a lour or six inch coloring brush. On old rotton shingles it fills up the holes and pores, hardens them and gives a new and substantial roof that will last for years. On curled or warped sningles, brings them to their place and keeps them there. It fills up the holes in Tiu or Felting roofs, and stops the leaks, one coat is equal to ten of ordinary paint.
